It'll pay to hit the road early for your sojourn to **Tjoritja West MacDonnell National Park**. Coffee and a pastry from The Bakery will fuel you for the 161km stretch west from Alice Springs.

While the scenery on the way is stunning, it pales in comparison to any of the park's magnificent waterholes. During the summer months, remember to pack swimmers for Ellery Creek Big Hole, Ormiston Gorge, Redbank Gorge and Glen Helen Gorge which are filled with cold, clear, and restorative desert water you can swim in year long.

Once refreshed, tackle the numerous marked walking tracks ranging from the leisurely to adventurous and discover an ancient landscape sculpted over time.

New in 2023, it starts with delicious cocktails infused with native ingredients. Then, stunning views of **Uluru** and Kata Tjuta complement a gourmet dinner hamper featuring a fusion of native ingredients and modern culinary techniques.

As the sun sets, be mesmerised by **Wintjiri Wiru**, the Mala story from the Anangu people. Using cutting-edge technology, this ancient tale will be brought to life with choreographed drones, lasers, music, and projections in the night sky to create a breathtaking and modern artistic expression of an age-old Anangu story told the local Pitjantjatjara language.

DAY 6

Before the sun peeks over the horizon, the magnificent Field of Light Uluru springs to life, casting a magical glow over the vast desert. This is a must-see attraction that has garnered critical acclaim and has now been extended indefinitely. Artist Bruce Munro's fascination with light has created magical pre-dawn glow over the vast desert with a jaw-dropping 50,000 shimmering spheres of colour.

Spread over an area larger than seven football fields, the exhibition is a veritable wonderland of colours, with stems of light swaying in unison to create a hypnotic display. The desert spectrum of ochre, deep violet, blue, and gentle white is a spectacle everyone should experience — a perfect way to end your six-day Red Centre Way adventure.
